

Breast Imaging Radiologist

General Summary:

LucidSolutions is currently seeking a Breast Imaging Radiologist to join the team in Waterloo, Iowa. This radiologist would lead a busy, NAPBC accredited breast center and two mammography imaging sites.

As part of the NAPBC accreditation, the Breast Imaging Radiologist has an integral role in participation in the Breast Program Leadership team. This collaborative team meets quarterly to determine steps for a patient outcome driven approach. The Breast Imaging Radiologist also works collaboratively with the organization's breast surgeon to provide the highest quality of care for women in the community and support women's health initiatives.

Job Details:

- 3 Hospitals located in Northeast Iowa – MercyOne Waterloo, Cedar Falls and Oelwein
- Monday-Friday 8a-4p, no call, no weekends
- The Breast Center is the location for the breast surgeon's clinic as well as a high-risk breast cancer screening program
- Diagnostic and screening exams performed daily, as well as complete diagnostic work-up, including same-day biopsies
- The hospital is in an outstanding market position with outstanding leadership in a very collegial medical practice environment
- 3 imaging sites average between 8,500-10,000 exams/year
- Approximately 100 breast cancer cases/year
- We offer a competitive compensation and benefits package (health/dental/vision insurance, 401k, CME, etc.) as well as equity opportunities
- Partnership Track or Employed options available

Job Requirements:

- Breast Imaging fellowship preferred
- Licensed in Iowa upon start
- Experience in 3D Screening and Diagnostic Mammography, Breast US, Breast US biopsies, Breast MRI, Breast MRI biopsies, Stereotactic biopsies, and Pre-op Breast Localization procedures

To apply, please send CV to Mary Iovanni at Miovanni@lucidhealth.com
