

Interventional Radiologist

General Summary:

LucidSolutions is currently seeking an Interventional Radiologist to join the team in Waterloo, Iowa. Our experienced Interventional Radiology Team consists of one Referral Coordinator, four Registered Nurses and four board-certified Interventional Technologists. We are looking for an Interventional Radiologist who will help grow the IR business by networking and partnering with other providers. This is a great opportunity to build an Interventional practice within multiple hospitals in the area.

Job Details:

- 2 Hospitals located in Northeast Iowa – MercyOne Waterloo and Cedar Falls
- Monday-Friday 7a-5p plus IR call
- 2 positive-pressure IR suites including a Siemens Artis Q Bi-plane unit with a ct-spin capability (2016) and a single-plane ceiling mounted Cannon Alphenix unit (2019) which allows us to offer a wide range of IR procedures
- We offer a competitive compensation and benefits package (health/dental/vision insurance, 401k, CME, etc.) as well as equity opportunities
- Partnership Track or Employed options available

Job Requirements:

- Interventional Radiology fellowship
- Licensed in Iowa upon start
- Excellent needle/wire/catheter skills
- Exceptional communication and inter-personal skills
- Desire and ability to share knowledge with IR staff
- Scanning for US guided procedures (biopsy, drain, nephrostomy, etc.)

To apply, please send CV to Kristin Gallucci at KGallucci@lucidhealth.com
