

Nuclear Medicine Radiologist

General Summary:

Riverside Radiology & Interventional Associates is currently searching for a radiologist with fellowship training in Nuclear Medicine to join us full-time in Columbus at Riverside Methodist Hospital. Our practice provides nuclear medicine imaging for several busy oncology practices in Columbus and throughout central Ohio. Increasing nuclear medicine volumes, particularly PET-CT, have created the need for an additional nuclear medicine radiologist. In addition to nuclear medicine, the radiologist would read general diagnostic radiology.

Job Details:

- Position located at Riverside Methodist Hospital in Columbus, OH
- Must be a board-certified Radiologist
- Partnership Track or Employed options available
- Instant access to referring clinicians built right inside our internal workflow product
- 24/7 call center support from our operations team
- Generous compensation and benefits package

About Riverside Radiology and Interventional Associates:

RRIA is one of the largest sub-specialized private radiology practices in the country having over 100 diagnostic and interventional radiologists on staff. We serve both large and small hospitals throughout Ohio. Our vast IT infrastructure allows the radiologist to be fully supported by additional general and sub-specialized radiologists located in Columbus and at our other locations throughout the state. RRIA is continually recognized as a national leader in radiology. To learn more about our practice, please visit our websites at <http://www.riversiderad.com/>
